ROUNDS

Players will be assigned pairings and a set table. Players are required to play against their assigned opponent on the specified table. If a player is absent from their table at the beginning of a round a consular may be called to confirm their absence and put that player 'on-the-clock'.

Final scoring can be entered by players directly into the Game Uplink event, requiring the other player's confirmation. A consular should only be called over if there is an issue entering results

RULE DISPUTES

In the event of a rules dispute players are encouraged to call for a consular. Consulars will confer with the players before addressing the issue in accordance with the current Rules Reference Guide and rules forum.

The tournament will be run using the Galactic Conquest Event pack. Players will be issued warnings and, if necessary, disqualified in accordance with this document. We strongly encourage our players to call for a consular if at any stage they believe there is an issue in line with this document. Examples of behaviour warranting a consular's involvement include, but are not limited to, collusion, slow play, aggressive behaviour, and cheating.
